

QUALITY POLICY

BPP ENERGY, s.r.o. is a company engaged in the production of pressurized and non-pressurized parts of power equipment, which we supply to customers not only from the Czech Republic, but also from Europe. The standardized management system helps us to maintain stable quality of our production by means of uniform production procedures, control activities and all supporting processes in accordance with the international standard ČSN EN ISO 9001:2016.

Our goal is to continue to provide high quality products and timeless solutions. Meeting the needs of our customers and exceeding their expectations is part of our daily work. Our values are quality, responsibility and teamwork. We are aware that consistent high quality can only be achieved with an established quality management system. The management has declared this quality policy, which is enforced through policies in the following areas:

Customer

- ❖ to respond flexibly to customer requirements
- ❖ to deliver in the agreed quantity, on time and to a high quality
- ❖ to continuously improve products and services
- ❖ to be a constant and reliable partner for customers

Employees

- ❖ to protect the health of employees and to prevent occupational accidents and diseases by effective prevention
- ❖ to provide an environment for growth and realization with a high degree of professional responsibility and motivation for activity and ideas
- ❖ to control one's own work and to regard the downstream employee in the process as an internal customer, to be accountable for the results of their work

Suppliers

- ❖ to build mutually beneficial partnerships with suppliers
- ❖ to monitor and evaluate the competence of suppliers, to select the most suitable suppliers

Technology and Infrastructure

- ❖ to introduce new technologies that benefit customers and our company

Environment

- ❖ to reduce the risks of damage to the environment and natural resources
- ❖ to cooperate with government authorities and organizations that operate within the company's reach

The company's management is committed to:

To provide resources to implement the quality policy, to comply with the above principles, to meet legislative requirements and to continuously improve the quality management system.
